SICKLE CELL ANEMIA COUNCIL TO CO-ORDINATE ALL LOCAL EFFORTS

Recently the total community has responded enthusiastically to the urgent cry of the Sickle Cell Anemia sufferer and his/her family. The contributions came from school children up to businesses. Small, moderate and larger donations have been received by various groups, organizations, and individuals. However, no concrete efforts have been made to co-ordinate this project. Duplications of functions, requests, and gifts, ahave been made. To assure a more comprehensive approach to this vital need of Black Citizens, the Sickle Cell Anemia Council has been formed. This Council is

composed of some of the concerned men and women, who have worked untireingly with Sickle Cell Anemia victims.

The Sickle Cell Anemia Council has established an account at a local bank. Acting officers are President, Ann Bryant, Vice President, Franklin Gary, and Secretary-Treasurer, Tim Foster. We are established as a non-profit organization. Donations are tax deductible. All donations may be given to any member of the Sickle Cell Anemia Council. Checks made out to individuals, have been deposited in the account. Future checks should be made out to the Sickle Cell Anemia Council

rumors and suggestions to doubt the kind of feelings of many of the people in my community. I have been led to believe that many citizens considered my efforts as needless and a hinderance to our community's progress.

Like SoJourney Truth I have irritated many people in many of my involvements. But the objections and purposes I have had in View are very plain and simple and maybe easily told.

1. I have always had and always shall have an earnest and true desire to contribute my service to the alienated and disadvantaged.

2. I have always believed and shall believe we must be concerned about generations to come.

3. I believe that federal money alone can not save our people.

4. I believe that a United Black Community that acts in concert can be a powerful tool.

5. I believe the time is now that we said we are not a forgotten people, but a people who need to unite and become greater people. We can only get what we earn and work for, we should not expect anyone else to do our job.

6. It is time to be a part of our times for our children's sake.

My Award is the people's award also. Without them I

could not have done these things. I enjoy working with people.

The trail of kindness I left by the work I have done satifies my aim.

I will continue to work, for citizens have proven to me there are those who care.

SAGINAW LOSING A DEDICATED MAN DR. COVINGTON

Dr. Covington

I have been offered the position of Deputy Superintendent of Schools in the Public School System of Montclair, New Jersey. Because the position affords expanded opportunities for providing leadership in all areas of school administration, the broader scope of responsibility represents an excellent means of professional growth. Therefore, despite my dedication to my work in the Saginaw Community I feel impelled to resign from my position as Assistant Superintendent for Special Services with the Saginaw City Schools. I sincerely hope that no one interprets my resignation to imply any conflict in my working relationships or lack of commitment to our educational program. My feelings are quite the contrary, and that makes the decision, to resign from my present position, an extremely difficult choice.

Through the efforts of many dedicated parents, staff members, and community leaders, Project BRITE is effecting a positive change in the quality of educational services to students in the schools of Saginaw's East Side. The achievement gains and positive attitudinal changes in students are direct results of a willingness on the parts of many of our staff and community residents, to work together for better schools. While we are obviously far from solving all of the educational problems which plague our community, the fact that numerous programs developed through Project BRITE are contributing to the significant improvement in students' levels of achievement and school adjustment allows me to leave Saginaw with some assurance of the progress made thus far and optimism for future success. During my three years of service in the Saginaw Public School System, I have enjoyed the privilege of associating with personnel in nearly all levels of employment and have acquired numerous friends. I owe a debt of gratitude to the Superintendent of Schools, Jack P. Taylor, to members of the Board of Education, and to many people affiliated with the School System.

Through my services on the Model Cities Policy Board and the Board of Directors for the Community Action Committee, as well as through association with various other community groups, I have developed a

genuine friendship and respect for numerous persons affiliated with local civic organizations and social agencies. Most gratifying, however, has been the working relationship and rapport I have enjoyed with citizens at the "grass roots" level. Their willing assistance and example of concerned citizenship have taught me more than any textbook could possibly offer. I wish to express my deepest appreciation to them for their loyal friendship and support.

Finally, I wish you, of the Saginaw Schools and Community, every success in your efforts to work together to maintain and enhance the quality of education for our students. For it is only through your continuing commitment and cooperation that Saginaw will become a better place in which to reside — a better place in which to rear and educate children.

Dr. Douglas Covington received his early education in the public school system of Wellington, Ohio; the Bachelor of Science Degree from Central State College, Wilberforce, Ohio; Master of Arts and Doctor of Philosophy Degree from Ohio State University, Columbus, Ohio.

He has held the following professional positions: A sixth Grade Teacher and School Psychologist for the public schools of Dayton, Ohio; Supervisor of testing and research in the school district of Gary, Indiana; served as educational Consultant to the Model Cities Program for the school district of Gary, Indiana. He is presently Assistant superintendent of Educational Improvement for the Saginaw Public School system.

Dr. Covington has professional membership in the following organizations:

The Council for Exceptional Children; American Personnel and Guidance Association; American Educational Research Association; Phi Delta Kappa Fraternity a former member of the Indiana State Board of Education and commission on Textbook Adoption. His civic organization affiliations include:

The Alpha Phi Alpha Fraternity; Community Action Committee (anti-poverty Program of Saginaw) Member of the Board of Directors and the Saginaw Model Cities Policy Board.

MINORITIES MISSING FROM MICHIGAN WEEK

By Milton J. Robinson
Executive Director

It's Michigan Week (May 20-27), the time each year when our state puts its best foot forward to engage in a bit of self-acclaim.

And, this is fine, except that once again blacks, Chicanos and other minority groups have been almost completely left out of the planning and production of this special week.

This lack of minority participation is particularly disturbing to me in view of the fact that one of Michigan Week's main goals is "to foster a spirit of cooperation among all communities and people so that all of Michigan will work together to make the state even more livable and attractive."

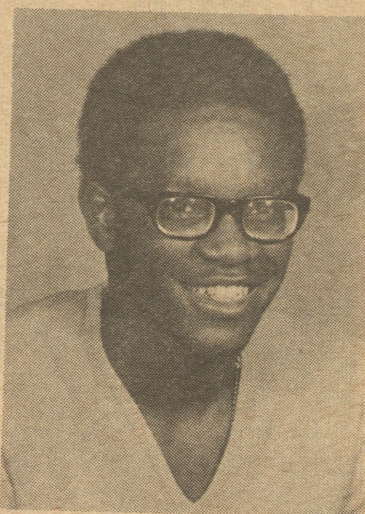

"A spirit of cooperation" between the white majority and minorities can never be achieved in any endeavor unless the majority recognizes the need to include the minority every step of the way.

By Ann Bryant.

Saginaw High has been dealing with a number of Educational and community problems. There has been progress in some areas and disappointment in others. Even though the educational climate at Saginaw High remains questionable, it still houses our most important and precious resources that our community holds. Without the physical and mental contributions of our students the future of this community and city will indeed fade into a worthless and pool of horror and dismay.

Saginaw High has many students who struggle to become somebody even though they are confronted with the many pressing problems that exist at school. It is to be recognized that one who does succeed in overcoming a mountain of hardship deserves the best support and trust that can be given a real human being.

Here are Four students who are gifted in different areas, but struggle for the common goal of becoming somebody. Not only

are they beautiful in character but also in spirit.

Gayle Cooper, a senior, has made up her mind about contributing something to her people and community. Her contributions has lead her to enter Michigan State as a pre-medicine major, so she can one day open up a practice to help the people who need her. Gayle presently excels in many areas in her school and community. She holds secretarial position in the Afro American Club, Travel Club, and National Honor Society. She also produces the same kind of achievement at Mount Moniah Missionary Baptist Church, where she teaches Sunday School and assist the church clerk. Gayle is presently 18 years of age and wants to be the best in her field. Her words are back by action.

Donovan Jones a 16 year old junior loves music. Music has always fascinated him ever since he could remember. Donovan can play the piano and tuba. He feels music is in many ways a international language. It expresses not only the joys and

happiness if ines sould but also the deep struggles and hardships that one endures in life. Because of his love for music he can learn to play a wide variety of music in a sort time. Playing has never been really hard for him. His goal is one day conduct a symphony. His goal is no easy task but he's willing to go through the necessary hardships in order to accomplish his goal. In fact this summer he'll be in Chile learning more about becoming a top musician.

Jackie McFarland has always been deeply concerned about her community, her church and school. She has tried in many ways to improve the harsh situation that exist in these areas. Jackie sings beautifully. You can find in her voice comfort, hope and understanding. Tabernacle Church enjoys having her as a choir member as does the Saginaw Valley district choir. She sings a variety of numbers with as much interest and love as a professional singer. Music is just a one side of her complete self. She's a junior cheerleader, secretary of Student Council, participants on the girls basketball team, and stays on the honor roll. Jackie possess a lot of grace and beauty not only in mind but personality. Because she loves her people, she wants to do as much as possible for them. Her theory is that, the Black School and community will only be what we make it. She is trying very hard to make it the best.

Robert Nash believes that art gives a message of life. You can find honor, pride, unity, peace in many pictures. Art can make you aware of whats really happening. It can also give you a closer look at nature, at human beings, at life itself. Robert thinks that Black unity is important and necessary. His art work portrays his deep concern about Black People, how they live and how they die. Robert at 15 years old has already produced a number of deep paintings that tell of the much need, of togetherness of Black people.

All of his pictures possess the williness for change and progress of human resources. Robert has done much thinking about what he could contribute to his community and race. Now he's trying to make that contribution the best in the world. Art to Robert is like bread to man a necessity of life.

These four students are good examples of the many other young people who believe that they must become somebody.

Manpower, Inc.

Young people in Saginaw will be eligible to compete for \$10,000 in prizes this summer through the SUMMER ACTION '72 program sponsored by Manpower, Inc.

Joanne Nosek, Manager of Manpower, Inc., in Saginaw, announced today that her company is sponsoring the competition in an effort to spur community betterment through creative action by young people aged 21 or under.

A first prize of \$3,000 will be awarded to the individual or organization conducting the best community action program between May 15 and September 1. A \$2,000 second prize, a \$1,000 third prize and forty \$100 merit awards will be given.

According to Mrs. Nosek, a "distinguished panel of judges will evaluate the entries on the basis of benefit to the community, the initiative demonstrated by the participants, the originality of the project and methods, and the project's potential for application elsewhere." In previous years the panel of judges has included such people as Art Linkletter, Astronaut James Lovell, Author John Gunther, and University of Wisconsin President John Weaver.

The local Manpower manager quoted a statement by Elmer L. Winter, president of the interantional temporary help and business service firm, which said that "with summer jobs becoming more scarce, Manpower is convinced that new encouragement is needed to stimulate desire on the part of our young people to find or create their own summer activities, and not rely as heavily as before on government, business, and industry."

Winter's statement also said that he believed youth has responded to Manpower's challenge. In the last two years over 600 projects have been entered in the SUMMER ACTION competition. In 1970 an Auburn area group won \$100 for their efforts.

Mrs. Nosek concluded by urging all young people in the Saginaw area to enter the SUMMER ACTION '72 program. Entry blanks and complete information can be obtained by stopping in or writing to the local Manpower office, 617 E. Genesee or calling 754-6506.

EUROPEAN FOR TOUR NAVY SINGER

WAHSINGTON, D. C. — The first female musician in naval history has left for a two-week tour with the rock group Port Authority, a unit of the U.S. Navy Band.

She is Evangeline Bailey of Portsmouth, Va., who recently joined the band as a vocalist. The group will tour U.S. military bases in Scotland, Italy, Sicily and Spain.

A spokesman said the Port Authority, directed by Chief Musician Jim Allen, is made up of musicians wearing mod attire. He added the group is the Navy's "open line of communication with the now-generation."

Miss Bailey, a Black American, was discovered by the band while working as a hospital corpsman third class at Bethesda National Naval Medical Center.

MICHIGAN BELL DESIGNS MINORITY DIRECTORY

More than 3,000 minority businesses in Michigan are being asked to participate in an innovative new directory designed by Michigan Bell Telephone Co.

Information forms which will enable the telephone company to compile a directory of the state's minority-group businesses have been mailed to the firms.

Believed to be the first of its size and scope to be compiled by a company for its own use, the directory will make it possible for Michigan Bell employees concerned with purchasing to identify minority-group firms capable of supplying various goods and services used by the company.

"Until now, we're sure that many of our employees responsible for purchasing weren't aware of the existence of some of the minority suppliers located in their areas," G. R. Harrington, Michigan Bell vice president, said. "Now they will be. And through this directory, we hope to help bring many of them into the mainstream of the economy."

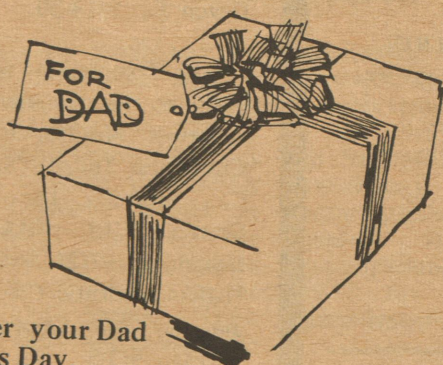

Harrington noted that Michigan Bell's attempt to widen opportunity for minority suppliers does not mean that opportunity will be diminished for firms that now do business with the telephone company. He said that Michigan Bell was seeking to "include — and not exclude" — more businesses in its purchasing program, adding that as a result the company would expect competition to become more intense for some of its business.

Harrington pointed out that the company has used the services of three of Michigan's four black architectural firms, that a black-managed firm carries 20 percent of Michigan Bell's group life insurance, and that the company deposits daily receipts from its largest public office in Detroit's only black-owned bank.

"But we need to do more," Harrington added, "to help make minority businessmen in Michigan an integral part of our and the state's growth."

In a letter sent to minority firms, Harrington said that the directory is a part of Michigan Bell's Affirmative Action Program, and that "we are going to do our best" to reach all firms with which Michigan Bell might do business. He asked the firms to notify Michigan Bell of any Black, Oriental, Latin American or American Indian companies which might have been missed in the mailing.

When the directory is completed in mid-July, it will be distributed within the company and to each of the businesses listed in it.

Scholarship Comm.

Miss Bernice Price, daughter of Mr. and Mrs. Robert L. Price, 2620 Janes, was awarded the second annual Cecil Doster, Jr. Memorial Scholarship for 1972.

The Scholarship is awarded annually to an outstanding Black Saginaw High School college bound student. The student must also be a member of the school Band.

This \$500.00 Scholarship is given in memory of Cecil Doster, Jr. who was killed in a

motorcycle-car mishap in 1970. He had been an active member of Saginaw High School's Band for three years, and had also played in Central Michigan University's marching and concert bands.

The award is funded by relatives and friends of the family. Mrs. Catherine Burton is the Chairman.

Miss Price is graduating cum laude and will be attending University of Michigan.

SECRETARY OF THE WEEK

This week Valley Star News salutes as 'Secretary of the Week' Mrs. Claresie Prince a Secretary at Houghton Elementary School located at 1604 Johnson Street.

Mrs. Prince has many different responsibilities working as secretary at Houghton. She answers the phone for Houghton, the Resource Center located at Houghton School, and the City Clinic on the grounds, also takes messages from the calls and directs persons to the correct number of corresponding programs. Mrs. Prince keeps records of attendance and vision and health records of the students. She works with the teachers by typing letters to parents and federal programs correspondence. Mrs. Prince helps the aids and works with the Parent Teacher Association (P.T.A.).

Being with the Board of Education for the past ten years Mr. Claresie Prince stated, "I enjoy my work here very

much." She loves working with the students, teachers, and the staff, because she loves working with people. According to Mrs. Prince there is never a dull moment.

She is the mother of six children, five boys all over six feet tall, Billy Gregory, Adrian, Teddy, and Anthony, and one beautiful daughter Wendy. So as you can see she has been associated with children for a long time, and she knows how to cope with various problems and ideals.

When Mrs. Prince was asked how she felt being "Secretary of the Week" for Valley Star she replied, "It's kind of scary, but nice. She reads the paper every week and feels that the paper is coming on strong. She stated she sees quite a few of her friends progressing through the paper and that Valley Star is doing a good job informing the community."

Being a long friend and neighbor of personnel at Valley Star, we would like to comment

YOUTH PRE-SCHOOL PROM

The children at the First Ward Community Center had their first prom, sponsored by the Pre-School Mother's Club, Friday June 2.

The prom was to the children recognition for completing their first year of learning away from home. Our little pre-school's were beautifully dressed in formals and tux's. They danced to the music of the Out of Sight band and the Stone Soul's. We would like to thank the lovely and talented Miss Debbie Steward for accompanying her brothers in the band and entertaining the children.

This was the first pre-school prom to be held in the new Multi-Purpose building. The mother's and father's enjoyed this beautiful event as much as the children.

that Mrs. Prince deserves more than this small article of acknowledgement because she is a very kind and understanding woman, and a very fine mother.

An unexpected child can really rock the cradle.

It costs a lot of money to raise a child.

That's why it's important to decide when you want each child. Because every child should be a welcome addition. Not an accidental burden.

SAGINAW COUNTY REPUBLICAN CONVENTION HELD

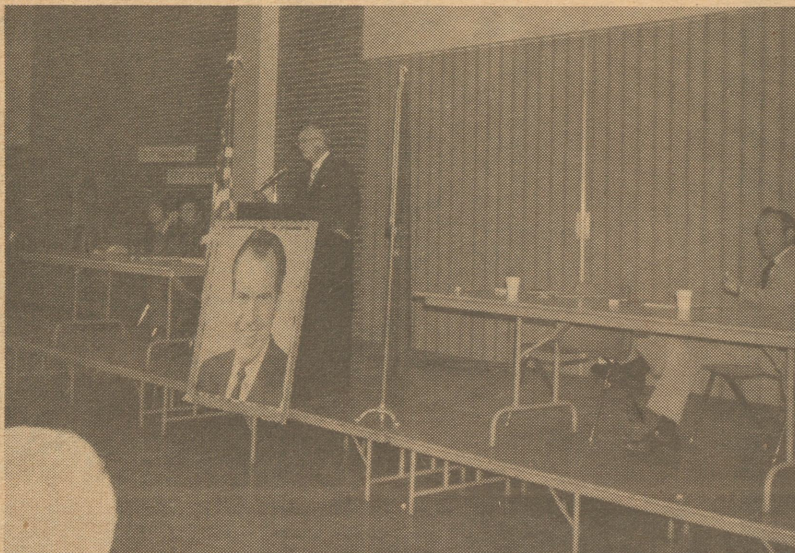

The Saginaw County Republican Convention began May 31, at 7:00 p.m. at the Civic Center with an introduction by Congressman James Harvey. Mr. Harvey said this is the "era of Negotiations", because of agreements like the Guam Doctrine where the U.S. is not responsible for every country. He also explained the importance of getting out and working for the party. Congressman Harvey, a member of the House Commerce Committee, Committee on House Administration, and House Republican Policy Committee also feels Senator Robert P. Griffin is doing a tremendous job in Washington.

The Keynote speaker for the event was Keith Molin, Governor Milliken's legislative liaison representative. He explained the importance of a precinct delegate, and the role they played in Governor Milliken's campaign in 1970. It's a job that gets little or no publicity, but it is important to know who the voter will support.

At the convention, fifty delegates and fifty alternates

were elected to go to the state convention at Cobo Hall, June 16th and 17th. Mr. Robert W. Grant, Jr. the Saginaw County

Republican Chairman was very pleased with the number of delegates that attended the convention.
